

## Individual Contribution Statements

Xuanqi Wei 1009353209

In the Capstone Project, I was assigned the responsibility of organizing the LaTeX document and writing research question 3 in the final report. As a team member, I contributed to the research design, data collection, and analysis. Specifically, I focused on developing the research question and conducting a thorough literature review to support our hypotheses. In addition, I worked collaboratively with my team members to refine our research methodology and ensure that our findings were accurately presented in the final report. As part of my role, I also organized the LaTeX document, ensuring that all sections were properly formatted and adhered to the required guidelines. Through this experience, I honed my skills in academic writing and learned how to effectively collaborate with team members to achieve a common goal. I am proud of my contributions to the final report and believe that our team's efforts have resulted in a meaningful and valuable individual improvement.
